PROFESSIONAL SUMMARY

Backend Software Developer with 3+ years of experience building scalable REST APIs, real-time applications, and multi-tenant systems using NestJS, Node.js, TypeScript, and SQL. Specializes in fintech and investment platforms, including BSE StAR MF and payment gateway integrations, digital KYC, authentication, and RBAC. Experienced in database optimization and production deployments on AWS with Docker.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), SQL, Java

Frameworks/Libraries: NestJS, Node.js, React, Socket.IO, TypeORM, BullMQ

Databases/Caching: PostgreSQL, MySQL, MongoDB, Redis

Security: JWT, OAuth 2.0, Role-Based Access Control (RBAC), Data Encryption, Audit Logging

Cloud/DevOps: AWS (EC2, S3, RDS), GCP, Docker, Nginx, PM2, Coolify, GitHub Actions (CI/CD), Linux, Git

Architecture: REST APIs, Microservices, Multi-Tenancy, WebSockets, Event-Driven Architecture, System Design

Tools: Swagger/OpenAPI, Postman, GitHub, GitHub Copilot, Claude

Integrations: Razorpay, Agora, MSG91, Anvil, Digio, BSE StAR MF

Practices: Agile/Scrum, Code Review, Debugging, Production Monitoring, Mentoring

EXPERIENCE

Senior Software Developer

Feb 2026 – Present

Mindstack Technologies Pvt. Ltd.

Mangalore, India (Remote)

- Build and maintain backend services for 5 live fintech products serving 50K+ users.
- Deliver 70+ robust, well-documented REST APIs using NestJS, Node.js, TypeScript, PostgreSQL, and MySQL.
- Ensure 99.9% service availability through production monitoring, log analysis, debugging, and server issue resolution.
- Conduct code reviews and mentor 6 junior developers on backend development, API design, and coding standards.
- Containerized apps with Docker and Coolify on AWS, slashing deployments from 1 hour to 10 minutes.
- Lead 1–2 developers on tight-deadline projects, working with product, QA, and business teams to ship features.
- Accelerated delivery from weeks to days with AI-assisted coding (Copilot, Claude), adopted by nearly 100% of the team.

Software Developer

Jun 2023 – Jan 2026

Mindstack Technologies Pvt. Ltd.

Mangalore, India (Remote)

- As the sole backend developer, built and maintained 40+ REST APIs using NestJS, TypeScript, and Swagger.
- Integrated Razorpay (100K+ transactions), Agora (real-time communication), and MSG91 (SMS/OTP services).
- Designed a multi-tenant system with virtual wallets, RBAC, authentication, and transaction workflows, supporting 10+ tenants and 10K+ monthly transactions.
- Streamlined KYC and e-signature processes via Digio, shrinking onboarding from 2 days to 15 minutes.
- Reduced API response time by 30% by optimizing PostgreSQL/MySQL queries and indexes and adding Redis caching.

PROJECTS

Professional Networking Platform

Jul 2023 – May 2025

Recruitment and Career Portal

NestJS, MySQL, Socket.IO, Nginx, PM2

- Created a networking hub for members, recruiters, and organizations across Asia, delivering 20+ REST APIs for profiles, resumes, company pages, job applications, and search.
- Enabled real-time messaging (100+ messages), notifications, and presence tracking via Socket.IO and WebSockets.
- Secured logins with JWT and optimized database queries for search responses under 700 ms.

Mutual Fund Trading Platform

Nov 2023 – Present

Distributor Investment Dashboard

NestJS, REST, Socket.IO, BSE StAR MF

- Built a solution used by 5+ distributors managing INR 27 Cr+ in client investments.
- Connected KYC, FATCA, UCC, and onboarding modules to BSE StAR MF, processing 2.5K+ investor registrations.
- Orchestrated SIP, lump-sum, SWP, and STP flows for 3K+ monthly orders with real-time Socket.IO status updates.
- Automated order sync, NAV updates, reconciliation, and transactions via 7 scheduled jobs, reducing manual effort.

Shares Dealing Platform

Aug 2023 – Present

Private Equity Deal Engine

NestJS, REST, Razorpay, Anvil

- Engineered the backend from scratch with one other developer for deals between HNIs and founders (200+ active users).
- Developed REST APIs across 7 modules: users, RBAC, bidding, negotiation, deals, payments, and transactions.
- Incorporated Anvil e-signatures with audit logging for 500+ agreements and records.

EDUCATION

N.M.A.M. Institute of Technology

Aug 2018 – May 2022

Bachelor of Engineering (B.E.) in Mechanical Engineering, CGPA: 8.2/10

Nitte, Karnataka
