PROFESSIONAL SUMMARY

Software Developer with 3 years experience building scalable backend services and real-time systems using NestJS and TypeScript. Skilled in REST APIs, third-party integrations, and cloud optimization for high-traffic platforms.

SKILLS

- **Languages:** TypeScript, JavaScript, SQL, Java(Basic)
- **Frameworks:** NestJS, Node.js, Socket.IO
- **Databases:** PostgreSQL, MySQL, MongoDB
- **Cloud/DevOps:** AWS, Docker, Git, Apache2, Linux, PM2
- **APIs/Tools:** REST, Swagger, Postman, Coolify, Minio
- **Integrations:** MSG91, Agora, Anvil, Razorpay, Digio

EXPERIENCE

Technical Lead/Senior Software Developer

Mindstack Technologies Pvt. Ltd.

Feb 2026 – Present

Mangalore / Remote

Leading engineering delivery for fintech platforms serving 50K+ users across multiple production systems, ensuring scalability and high availability.

Architecting backend services, driving technical decisions, and conducting code reviews to maintain performance, security, and reliability standards.

Mentoring developers, optimizing sprint execution, and establishing engineering best practices to improve release efficiency and team productivity.

Software Developer

Mindstack Technologies Pvt. Ltd.

Jun 2023 – Jan 2026

Mangalore / Remote

Built scalable backend systems and delivered 40+ REST APIs supporting mutual funds, equity trading, and real-time communication workflows.

Integrated third-party platforms including Agora, Razorpay, MSG91, and external services, reducing development cycle time by 25%.

Designed multi-tenant onboarding flows, virtual wallet infrastructure, transaction tracking, and role-based access control (RBAC) systems.

PROJECTS

Professional Networking Platform

Career & Professional Networking Platform

Jul 2023 – May 2025

NestJS, MySQL, Socket.IO, DP Data Center

Developed a scalable professional networking platform connecting professionals, recruiters, and organizations across the Asian Continental region.

Built RESTful APIs for user profiles, resume uploads, profile photos, work experience, education, skills, company pages, and job applications.

Implemented real-time messaging, connection requests, notifications, and online presence using Socket.IO for seamless user interaction.

Designed secure authentication, role-based access control, advanced search, and optimized database queries to improve platform performance and scalability.

Deployed and maintained production services on DP Data Center infrastructure, managing Linux servers, Nginx reverse proxy, SSL configuration, MySQL, PM2, and application monitoring.

Mutual Fund Trading Platform

Distributor Investment Dashboard

Nov 2023 – Present

NestJS, REST, Socket.IO

Architected a multi-tenant platform allowing distributors to manage client portfolios and investments.

Programmed modules for KYC, FATCA validation, and UCC registration with BSE integration.

Handled full investment lifecycle including SIP, Lumpsum, SWP, and STP flows with reconciliation support.

Utilized Socket.IO to push real-time order updates and streamline distributor-client communication.

Shares Dealing Platform

Private Equity Deal Engine

Aug 2023 – Present

NestJS, REST, Anvil

Developed backend support for seamless private equity trades between High Net-worth Individuals (HNIs) and startup founders.

Crafted APIs for user roles, bidding, negotiation, and secure handling of trade agreements.

Automated e-signature workflows with Anvil to enforce legal compliance in share transfers.

Implemented token-based access and audit logging across all endpoints for regulatory alignment.

EDUCATION

N.M.A.M Institute of Technology

B.E. in Mechanical Engineering

CGPA: 8.2/10

Aug 2018 – May 2022

Nitte, Karnataka

Sharada P.U. College

P.U.C in PCME

Jun 2016 – May 2018

Mangalore, Karnataka
